Tailwind CSS

Supabase

Node.js

n8n Automation

OpenAI API

C++

Python

REST APIs

Git & GitHub

### ABOUT ME

I am a passionate AI and Frontend Developer currently studying BS Artificial Intelligence. I enjoy building modern web applications, AI-powered systems, and user-friendly digital experiences using Next.js, TypeScript, Tailwind CSS, C++, and n8n.

I have worked on multiple real-world and academic projects including AI-powered apps, portfolio websites, automation workflows, and management systems. My goal is to become a professional AI Engineer and Full Stack Developer who creates impactful, innovative solutions.

### PROJECTS

#### Bilal GPT

AI-powered chat app with custom GPT interface

Next.js · TypeScript · OpenAI

[bilal-gpt.vercel.app](#)

#### Clinic Management

Patient records, appointments & doctor dashboard

Next.js · Supabase · Tailwind

[clinic-fptv.vercel.app](#)

#### Disease Predictor

AI symptom analysis & diagnosis prediction

Next.js · AI/ML · TypeScript

[disease-predictor-beryl.vercel.app](#)

#### Admin Panel

User management, analytics & role-based access

Next.js · Supabase · TypeScript

[admin-panel-five-sooty.vercel.app](#)

#### Attendance System

Digital student check-in & monitoring

Next.js · Supabase · Tailwind

[attendace-system-eta.vercel.app](#)

#### Luxury Cars Showroom

Premium car listings with elegant UI

Next.js · TypeScript · Tailwind

[luxury-cars-5trq.vercel.app](#)

#### Prayer Time App

Location-based Namaz timings display

Next.js · Prayer API · TypeScript

[prayer-time-rust.vercel.app](#)

#### JSON Formatter

Developer tool for formatting & validating JSON

Next.js · TypeScript · Tailwind

[json-formatter-chi-nine.vercel.app](#)
